

# TRANSIT VISION

We envision an Atlanta where communities are transformed by safe and reliable transit options that link residents to the opportunities they need to thrive. This new Atlanta features:

- Maintenance and expansion of affordable, accessible, and safe transit, prioritizing transit-dependent communities
- Improved and expanded infrastructure in areas of transit-supportive density that include a variety of modes and access to neighborhoods, jobs centers, daily services, schools and cultural amenities
- Existing residents proactively engaged to explain and mitigate displacement caused by infrastructure investments and subsequent market changes

## *How can we make this vision a reality?*

Increase resources to fund transit service expansion

Prioritize community engagement and opportunities for the arts, culture and creative placemaking in all transit investment decisions

Increase resources to fund infrastructure to support transit use, e.g., sidewalks, signs, bus shelters

Preserve and enhance bus service for transit dependent communities

Pursue regional coordination of transit system to maximize rider convenience and experience

**A typical family**  
in the Atlanta region spends

**49%** of their  
annual  
income on  
**transportation & housing**

## **Transit Clears Congestion**

At capacity, **1 bus** can hold the same number of commuters as **24 cars**.

**TransFormation**  
ALLIANCE

## DIVERSE & DEDICATED

The TransFormation Alliance is a diverse collaboration working toward a unified goal of ensuring that the value of integrating transit into development is made accessible to all residents of a community, not just some. Through our working committees, we collaborate with organizations that share our passion for strengthening communities. Our partners include:

Community Advocates

Non-Profit Developers

Policy Experts

For-Profit Developers

Transit Providers

Government Agencies
